New Requirement: Credit Card on File For Payments

For your convenience we will keep a credit or debit card on file that will be run the day of service on every treatment. For your credit card safety we stay 100% PCI Compliant. This means that we are held to the same standards as companies like PayPal and Amazon. Once you setup your account we can only see the last four digits of your number and that will only be viewed by authorized personnel. Contact us to arrange other payment options. This will go into effect Feb 1, 2024.

How To Add Your Credit Card On File:

We will be sending you a text message to add your credit card to your Client Hub. Even if you have one on file already, please double check that is the card you wish you use. If not, you can update it.

Get To Know Your Client Hub:

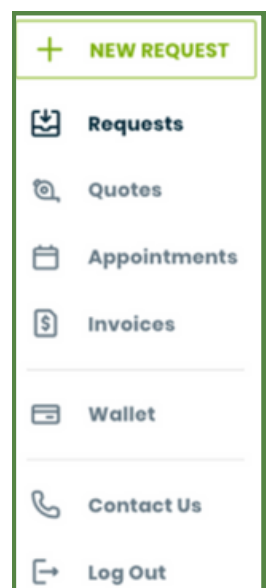

Become familiar with Client Hub. This is where you can make payments online as well as view quotes, invoices, and upcoming appointments. You can also update your payment information and make service requests.
